

**GSAM provides stakeholders with financial and non-financial inputs to improve citizen's oversight of capital projects.**

**PATHWAY 1**

(1A) GSAM provides CSO Partners with finance to ensure their active participation in the project.

(1B) CSO Partners appoint Community Development Monitors to lead the GSAM project within their organisations.

**PATHWAY 2**

(2A) GSAM agree with District Assembly authorities a MoU that creates conditions of cooperation including the release of data on capital projects.

(2B) District Assemblies release data on selected capital projects and cooperate in dialogue in key spaces, including District Steering Committees, and interface meetings at community and district levels.

**PATHWAY 3**

(3A) GSAM provides training to CSO Partners to increase their knowledge and skills (including the use of social accountability tools and appropriate ICT) and to facilitate their engagement in District Assembly planning and implementation processes of capital projects.

(3B) CSO Partners acquire knowledge and skills to monitor and engaged in District Assembly planning and implementation processes of capital projects.

(3C) CSO Partners deliver sensitisation events at community level to raise awareness of the GSAM project and to provide information on capital projects in their area, and how they can engage.

(3D) Citizens know about the GSAM project and have improved knowledge of capital projects in their area and how they can engage in District Assembly planning and implementation processes.

(3E) CSO Partners, with support from local community leaders, select and appoint citizens as volunteer Community Monitors, who are responsible for regular monitoring of capital projects in their area.

(3F) CSO Partners provide training to Community Monitors to increase their knowledge and skills (including the use of social accountability tools and appropriate ICT) and to facilitate their engagement in District Assembly planning and implementation processes of capital projects.

(3G) Community Monitors acquire knowledge and skills to monitor and engaged in District Assembly planning and implementation processes of capital projects.

(3H) Community Monitors and Community Development Monitors conduct regularly monitoring of capital project sites using social accountability tools to identify issues/concerns and, if found, escalate concerns which cannot be immediately resolved, for a response from the District Assembly. This can happen in a number of ways: at District Steering Committee; by engaging directly with District Assembly Members; at a Community Interface Meeting; or a District Interface Meeting.

**PATHWAY 4**

(4A) Monitoring data is used to produce scorecards that highlight citizens' concerns and District Assemblies' performance on 4 indicators of interest.

(4B) CSO Partners facilitate dialogue between citizens and District Assembly authorities and contractors on scorecard data through interface meetings; and make commitments to address citizen's concerns.

**District Assemblies improve their responsiveness to citizens' concerns in relation to the planning and implementation of capital projects.**
